

31 July 2007

Mr Robert Smillie  
Manager Exploration and Mining Services  
Crown Minerals  
PO Box 1473  
Wellington

Dear Mr Smillie

In one of many letters from Hon. Harry Duynhoven during 2005, he suggested I contact you to further my cause regarding final settlement on all outstanding mining privilege issues relating directly to my unresolved legal rights with these issues and the Crowns offer of reimbursements to date.

Due to the vast paper trail dating back to 1989, in this letter I do not think it necessary to enter into any other matters other than a compromise between myself and the Ministry for a speedy resolve and financial settlement.

As a submitted out of court final settlement, I hereby seek reparations of 1.2 million dollars. For not only all statutory costs and compounding interest due to me but also personal and financial damages the Ministry has caused me by refusing to acknowledge my statutory rights and intentionally expropriating those legal rights over a period of seventeen years, set out very clearly on documentation at my web site at <http://www.2dvd.biz/greenstone.html> and associated linked pages and files.

I am also aware of the settlement the Crown have come to with Glenharrow Holdings since the Glenharrow case resolutions.

In fact this case has only highlighted the reasons why my situation must be resolved.

A continuation of the Ministry's stance of denial will only further the legitimacy of my allegations.

The Ministry is very aware of all the irregularities involved with my issues and also that my case for reparations does not relate to the Crown Minerals Amendment Act 2003.

I made exhaustive attempts to apply for a renewed license fifteen months prior to the pounamu vesting and did not let my license lapse. I remain paying the bond on it to this day and the local authorities will not release it until the Ministry resolve my legal grievances.

Accordingly I await your response to this request before pursuing my further options.

Yours sincerely

Kenn J Landaus
