**LEGAL ASSISTANCE – POUNAMU MINING PRIVILEGES and APPLICATIONS**

Dear Sir/Madam,

Please find copies of my letter to David A.R. Williams, QC of Auckland and his letter in reply.

I accordingly pass on all this information in order that you may completely understand my longstanding predicament with these matters and kindly request if The Law Society could be of any assistance to me or through your members of the general legal fraternity.

Because compensation seems now, to be completely ruled out, along with Judicial Review, I have personally ascertained that my only avenue could be to seek a settlement with the Crown, on the basis of the alleged deprivation of my Statutory Rights.

Given the Law Societies submission addresses on The Crown Minerals Amendment Bills, I consider that I have been legally wronged to the extreme and am sure that your legal representatives may agree with this once the information provided as per my website, is viewed.

I would be very grateful if you may provide either some advice on the matter or perhaps are aware of a legal office that may be interested in proceeding with legal action on my behalf.

I have received many news media inquiries as to my longstanding grievances on these matters, but prefer to ascertain my legal action options before telling my story to the world.

One may view my supporting information that I have prepared entirely by myself at <http://www.digita.co.nz/greenstone.html>.

I can also provide a local linked flash-drive or disk if preferred.

Hoping you may be of any assistance to me. Thank you.

Yours sincerely

Kenn J Landaus
